About Us

DARSHAN CHEM is a leading solution provider for Water and Wastewater Treatment for both domestic and industrial areas.

We offer innovative products and process lines for effective water and wastewater management.

Our business is founded on dedication and commitment to customer service, with expert professionals guiding our clients through the entire lifecycle of a project – from design and engineering to technology selection, installation, start-up, maintenance, operations, and ongoing field service support long after the initial sale.

We specialize in the Manufacturing and Trading of Water Treatment Chemicals, including ETP, STP, WTP, Cooling Tower Chemicals, RO (Reverse Osmosis) Chemicals and various industrial chemicals.

Additionally, we provide comprehensive solutions for Effluent Treatment Plants (ETP) and Sewage Treatment Plants (STP).

Food & Edible Oil Industry

Pharmaceuticals Industry

Slaughter House Effluent

Paint Industry

Vision

To be a premier environmental solution providing firm, whose level of quality and integrity will the set new standards for water, wastewater & process Industries.

Mission

DARSHAN CHEM committed to providing sustainable environmental solutions that meet specific customer needs and are consistent with the long-term interests of the environment and do business by implementing environmental projects that benefit our community socially and economically.

An **ISO 9001:2015**
Certified Company

Darshan Chem

Advanced Water Treatment

— An ISO 9001:2015 Certified Company —

Core Services

- Effluent Treatability
- Customised ETP / STP Units
- Customised Waste Water Treatment Chemical
- Site Troubleshooting
- Product Development & Its Applications
- Environment Consultancy

Product List

WASTE WATER CHEMICALS (ETP & STP)

- Colour Removal
- De-Oiling Chemical
- Sludge De-Watering Chemical
- Coagulant
- Flocculant
- Heavy Metal Removal Chemical
- Caustic Soda Flakes / Lye
- Hydrochloric Acid
- Anionic Polyelectrolyte
- Cationic Polyelectrolyte
- Poly Aluminium Chloride Powder / Liquid
- Sodium Meta Bi Sulphate
- Silicone Defoamer
- Ferric Alum
- Non Ferric Alum
- Sodium Hypochlorite
- TCCA 90
- Lime Powder
- Bio-Culture Powder / Liquid
- Di-Ammonium Phosphate (DAP)
- Urea

WASTE WATER / WATER TREATMENT PLANT

- ETP / STP Plant Manufacturing
- RO / Softener Plant Manufacturing
- Sand Media / Gravels

Industrial Water Treatment Plant

Services and Support

DARSHAN CHEM offers comprehensive Operations and Maintenance (O&M) services to ensure the optimal performance and longevity of water treatment plants and systems. Our team of skilled engineers and technicians is dedicated to providing reliable support throughout the life cycle of your water treatment infrastructure, from installation to ongoing operation & maintenance.

Installation & Commissioning

First stage of a wastewater treatment plant installation is commissioning. Involves adjustment of the equipment assemblies to optimize their performance and it requires skilful commissioning.

Operations & Maintenance

Our O&M team conducts regular inspections of water treatment plants and systems to identify any potential issues or areas for improvement, ensuring continuous operation and optimal performance.

Up-gradation of Plants

In the current economic environment, upgrading existing wastewater treatment plants is a smart option. Besides improving effluent quality, the new technology will help the district meet stringent regulatory.

We provide services across India.
